DATE February 4, 2019

Quote#0452
CCB #66293

Prepared for: Umatilla County Richard Doherty

Quotation valid until: February 14, 2019
Prepared by: Randy Scarbrough

Comments or special instructions: This quote is for the removal of a sewer grinder housing that is in an existing sewer main and replace it with a new grinder assembly. We will remove the down stream valve and "T", pull the old grinder housing, replace the MJ Follower on the 8" PVC, and clean all surfaces. At this point the new grinder assembly will be installed followed by the down stream valve. All concerned gaskets and bolts will be replaced. All bolts will be tightened with torque pattern and then torqued to spec. We will provide Confined Space Entry (\$250 Fee). The bypass needed to perform the work will be installed and maintain by a third party to this project. We will assist with the installation of the bypass if needed but assume no responsibility beyond installation. This quote includes all fees and material costs. This is a budgetary quote, there are certain aspects of this project that are unseen and will need to be worked through with Richard and myself.

Description	Material/Consumables	Labor/Shipping	AMOUNT
