

NARRATIVE:

The purpose of this survey is to stake the N-S centerline of Section 5 between the "A" Canal and Baxter Road so a fence can be built in the correct location. The property to the West of this line was surveyed by Gaschler & Associates under my supervision in 1975 but the South corner was set in error as shown. I believe the property owner set the corner 91 feet North of that one and it is also in error as shown. I set wood stakes and lath every 200 feet, more or less, along the center Section line as shown on the map.
