

To the Honorable County Court of Umatilla Co. Oregon.

We the undersigned viewers appointed to view and locate County road No 287: by leaf to report to your Honorable body! That we met on the 15th day of June 1887 and duly qualified and proceeded to discharge our duties as directed and after having gone a short distance on our way we were informed by the Surveyor, J. L. Arnold that it was literally impossible to complete the Survey as set forth in our instructions; and we viewers are of the same opinion; for instance we were directed to proceed to a point 80 rods Northwesterly from the South East-corner of Sec-14 thence South on section line on the land of Lewis Winters and John Lewis & Harold. Now the facts are the land of said Winters and Lewis is one mile West from the South East-corner of Section 14 +

It is evident to our minds that the petition was not drawn as intended, and that the South West-corner of Section 14, was intended for a point on the road instead of the South East cor + Therefore we deeming it unwise to cause additional expense to the County in this case adjourned

This June 17th - 1887
