

Report, Survey & Plat of Co. Road from Umatilla City via McKay ca
30'

Rd #1

Blue Mts. on Meacham Road.

To the Sevr. County Court of Umatilla County, Oregon:

We the undersigned, viewers appointed at the April term of this Court for the year 1866 to survey and locate a County Road leading from Umatilla City to a point at or near the Summit of the Blue Mountains, by the way of the 12 mile House, Birch Creek and McKay Creek, beg leave to submit the following final report: 1st That we recommend that the route set forth in the report and map of Mr. J. H. Sharon, surveyor, herewith filed, and leading from Umatilla City, by way of the 12 mile House and crossing the Umatilla River at the ranch of Mr. James R. Means and proceeding from thence by way of the Jones Canyon Birch Creek and McKay Creek, and ascending the Blue Mountains near the forks of McKay Creek, and proceeding from thence to the Meacham road by what is known as the Hull Trail be established and declared a County road.

2^d That the route viewed by us, and set forth on the map of Mr. Sharon, commencing at the 12 mile House, and crossing the Umatilla river at the ranch of Mr. L. Everts where it again connects with the main route above recommended be also declared a County road.

3^d That the road supervisors of this County be authorized in performing labor on public highways passing through unimproved lands, to vary from the surveyed routes, where in their opinion, the best interests of the public demand it.

4th That the County be laid off into suitable ward districts and road supervisors be appointed therefor, as soon as the law will permit. We recommend the establishing of the main route above indicated as a County road, for the reason that we believe that it would be a convenience to the traveling public generally, as a public thoroughfare leading from the Columbia river to the mining and farming country in the eastern portion of this State and Idaho Territory; and that it would be a great benefit to the settlers living in the vicinity of the proposed road furnishing them, as it would with a home market for their produce and means for trans-

Rd #1

posting it elsewhere. It would also materially lessen the distance which emigrants and others are compelled to travel in going over land from places east of the Blue Mountains, to Western Oregon.

The route recommended which crosses the Umatilla river at Mr. Everts' ranch is merely a subdivision of the main route and nearly one mile shorter in distance. Owing to the great length of the route the health of one of the viewers and the pressing business engagements of the others we have not been able to make as thorough an examination of it as we had hoped and deemed desirable. We are convinced that in several places the distance could be lessened and the route improved by a re-survey. Still by allowing road supervisors to change the route through unimproved lands where they may deem it advisable, this evil can be remedied to a considerable extent. It is obvious that but little if any improvement will be made on the road until it is laid off into districts and supervisors appointed. Our recommendation in regard to that matter therefore needs no further argument.

All of which is respectfully submitted,

Lucian Everts

M. B. Burk

Henry Bowman,

Viewers.

We would further state that: In pursuance of the order adopted by the County Court at its last July term, we have spent some time in examining the route originally viewed and surveyed by us during the month of June last - a map of which is now on file in this Court; but that we have finally concluded to adopt that portion of the original survey hereinafter specified, & recommend its adoption by the Court, as a County road. There are some portions of the route originally surveyed by us which might perhaps be improved by a re-survey but the great expense attending such a proceeding would probably overbalance any benefit which would be derived from it; besides our business engagements are of such a nature that we do not feel justified in devoting further time to the business of viewing the road for the compensation allowed by law. The route recommended by us for adoption as a County road is the one set forth in the surveys

Rd #1

map herewith filed, which follows the main course of the Umatilla river and crosses it near the 71st mile post; thence following along the southern side of the river as far as the mouth of the Jones canyon; thence via Jones canyon to Birch creek, thence to the Forks McKay creek, thence to what is known as the Meacham road by way of the southerly route, set forth on the map, which ascends the Blue Mountains at the Forks of McKay creek and forms a junction with the Meacham road about 2 $\frac{1}{2}$ miles beyond Meacham's station, and near the 64 mile post.
