NARRATIVE OF SURVEY  
for  
ALVINA HUESTIES

This survey was performed for the Umatilla Reservation Housing Authority as part of the 12-07 housing construction project.

The survey involved laying out a 1.0 acre, more or less, site located North of and abutting the South line of Section 28, Township 1 North, Range 33 East, W. M., on lands now owned by the heirs of original Indian Allottee Esther Pond. The South line of the tract is located on the South line of said Section 28, the East, West, and North lines of the tract are located within the exterior boundaries of the overall tract.

The approximate location of the South line of said Section 28 was determined based on the Easterly projection a line between the  $\frac{1}{4}$  corner common to Sections 28 and 33 and the East  $\frac{1}{16}$  corner common to Sections 28 and 33. The Southeast Corner of Section 28 could not be located.
