FIELD NOTES

OWNER: Jack Kelley

Type of SURVEY: Boundary Survey

LOCATION: Section 30, T4N, R38EWM

With the instrument set on the point on semi-tangent of the Weston-Elgin Highway where the South line of the SW $\frac{1}{4}$ of said Section 30 intersects said semi-tangent, I sighted on the $\frac{1}{4}$ corner between Section 30 and Section 31 and measured 768.40 feet where I established the SE corner of the Kelley property marking it with an iron pin. I then turned northwesterly down the center of said Highway and measured 433.92 feet to the P. I. of the next curve on said Highway where I set an 5/8" iron stake. I then turned northwesterly along the centerline of said highway and measured 1190.0 feet where I set a 5/8" iron stake marking the intersection of the Highway with the North line of the Kelley property. I then turned No. 89°41' East and measured 768.40 feet to establish the Northeast corner of said property which I marked with a 5/8" iron stake.
