## North Fork Umatilla Wilderness Boundary: Phase II Umatilla National Forest

### North Fork Umatilla Wilderness Angle Point 861

**HISTORY OF ORIGINAL CORNER ESTABLISHED:**

Corner not previously monumented. This is an administrative corner interior to National Forest System Lands. The position of this corner is controlled by the legal description of the North Fork Umatilla Wilderness as shown on the map dated September 1986, as generally described in Public Law document 98-328.

**DESCRIPTION OF CORNER EVIDENCE FOUND:**

N/A

**DESCRIPTION OF MONUMENT AND ACCESSORIES ESTABLISHED TO PERPETUATE LOCATION OF THIS CORNER:**

At a position on the 4600 foot contour determined by this survey, I set a 3/4 inch diam. by 15 inch long aluminum drive rod, in concrete filled drill hole, with DEEP-1 magnet at base, and a 3 1/4 inch aluminum cap, mkd. as shown, and a rock collar.

From which:

A 5/8 x 15 inch iron rod, in concrete filled drill hole, and a light blue plastic cap mkd. WALLOWA ASSOCIATES, bears S 30° E, 7.9 ft. dist.

An 8 inch Douglas fir mkd. XBT on a double blaze, with a 3/4 inch brass tag in face and 2 1/2 inch MAG nail in right side center, bears S 76° W, 32.4 ft. dist.

NAD 83 Geodetic Position:  
Lat. 45°42'17.550" N  
Long. 118°06'45.254" W

Established by: Trimble RTK

Bearings are measured to the brass tag, and distances to the MAG nail, where used. All bearing trees are painted with 6 inch red bands, and have Bearing Tree (54-3) and Land Survey Monument (54-9) signs attached.

Posted and marked wilderness boundary easterly and westerly along the 4600 foot contour from the corner with Wilderness Boundary (27-6A) signs, and a Land Survey Monument (54-9) sign on nearby post.

I hereby certify that the corner is monumented as described, using dual frequency carrier-phase GNSS receivers and the accessories were taken using a Warren Knight staff compass with 14 1/4° East declination, and steel tape.

Witnesses: Kristina Powell, Shar Hutchison and David Quittschreiber  
Date: 8/19/2020

### North Fork Umatilla Wilderness Angle Point 882

**HISTORY OF ORIGINAL CORNER ESTABLISHED:**

Corner not previously monumented. This is an administrative corner interior to National Forest System Lands. The position of this corner is controlled by the legal description of the North Fork Umatilla Wilderness as shown on the map dated September 1986, as generally described in Public Law document 98-328.

**DESCRIPTION OF CORNER EVIDENCE FOUND:**

N/A

**DESCRIPTION OF MONUMENT AND ACCESSORIES ESTABLISHED TO PERPETUATE LOCATION OF THIS CORNER:**

At a position on the 4600 foot contour determined by this survey, I set a 3/4 inch diam. By 28 inch long aluminum drive, in concrete filled drill hole, with DEEP-1 magnet at base, and a 3 1/4 inch aluminum cap, mkd. as shown, with a rock collar.

From which:

An 8 inch white fir, mkd. XBT on a double blaze, with a 3/4 inch brass tag in face, mkd. LS 91201, and 2 1/2 inch MAG nail in right side center, bears N 85° E, 17.3 ft. dist.

A 5/8 x 15 inch iron rod, in concrete filled drill hole, with light blue plastic cap mkd. WALLOWA ASSOCIATES, bears S 5° E, 19.6 ft. dist.

NAD 83 Geodetic Position:  
Lat. 45°42'22.023" N  
Long. 118°07'16.009" W

Established by: Trimble RTK

Bearings are measured to the brass tag, and distances to the MAG nail, where used. All bearing trees are painted with 6 inch red bands, and have Bearing Tree (54-3) and Land Survey Monument (54-9) signs attached.

Posted and marked wilderness boundary easterly and southerly along the 4600 foot contour from the corner with Wilderness Boundary (27-6A) signs, and a Land Survey Monument (54-9) sign on nearby post.

I hereby certify that the corner is monumented as described, using dual frequency carrier-phase GNSS receivers, and the accessories were taken using a Warren Knight staff compass with 14 1/4° East declination, and steel tape.

Witnesses: Kristina Powell, Shar Hutchison and David Quittschreiber  
Date: 8/4/2020

### North Fork Umatilla Wilderness Angle Point 1035

**HISTORY OF ORIGINAL CORNER ESTABLISHED:**

Original corner established by Dennis L. Gaylord, LS 1636, as described by the Surveyor's Report - 1991 for the Umatilla National Forest, dated Feb. 21, 1992.

Record states:

Set a 5/8 inch by 36 inch iron rod 26 inches into the ground, surrounded with a mound of stones. A 1 1/2 inch aluminum cap attached...

From which:

A 16 inch Douglas fir, bears S21°W, 240.9 feet.

A 6 inch Douglas fir, bears S85°30' E, 151.3 feet.

Both trees are scribed "WB/1035 BT" on double blazes and have 3/4 inch brass washer, marked "PLS 1636," nailed flush to the lower blaze. Both trees also have sign 54-3, Bearing Tree, nailed above the blazes and sign 54-9, Land Survey Monument, nailed to back.

**DESCRIPTION OF CORNER EVIDENCE FOUND:**

Found a 5/8 inch iron rod, with 1 1/2 inch aluminum cap, mkd. as shown:

From which:

A 6 inch fir snag, dead and down, with WB 1035 BT visible on open double blaze, bears S85 1/2° E, 151.3 ft. dist.

An 18 inch Douglas fir, alive and healthy, with healed double blaze, bears S21°W, 240.9 ft. dist.

**DESCRIPTION OF MONUMENT AND ACCESSORIES ESTABLISHED TO PERPETUATE LOCATION OF THIS CORNER:**

New BT:

A 9 inch ponderosa pine mkd. WB 1035 BT on single blaze, with a 3/4 inch brass tag in face mkd. LS 91201, and 2 1/2 inch MAG nail in right side center, bears N79 1/2°W, 226.0 ft. dist.

NAD 83 Geodetic Position:  
Lat. 45°40'08.1" N  
Long. 118°08'28.8" W

Established by: Garmin Etrex

Bearing are measured to the brass tag, and distances to the MAG nail, where used. All bearing trees are painted with 6 inch red bands, and have Bearing Tree (54-3) and Land Survey Monument (54-9) signs attached.

Accessories were taken using dual frequency carrier-phase GNSS receivers.

## North Fork Umatilla Wilderness Boundary: Phase II Umatilla National Forest

### North Fork Umatilla Wilderness Angle Point 533

**HISTORY OF ORIGINAL CORNER ESTABLISHED:**

Corner not previously monumented. This is an administrative corner interior to National Forest System Lands. The position of this corner is controlled by the legal description of the North Fork Umatilla Wilderness as shown on the map dated September 1986, as generally described in Public Law document 98-328.

**DESCRIPTION OF CORNER EVIDENCE FOUND:**

N/A

**DESCRIPTION OF MONUMENT AND ACCESSORIES ESTABLISHED TO PERPETUATE LOCATION OF THIS CORNER:**

At the intersection of the 5000 foot contour with the projection of a small draw, determined by this survey, as shown herein:

I set a standard USFS 2 1/2 x 30 inch aluminum pipe, with clear DEEP-1 magnet at base, and 3 1/4 inch aluminum cap, mkd. as shown, with a rock collar.

From which:

An 8 inch spruce, mkd. XBT on a double blaze, with a 3/4 inch brass tag in face mkd. LS 91201, and 2 1/2 inch MAG nail in right side center, bears N43°E, 10.4 ft. dist.

A 5/8 x 30 inch iron rod with a light blue plastic cap mkd. WALLOWA ASSOCIATES, bears N34°W, 23.5 ft. dist.

NAD 83 Geodetic Position:  
Lat. 45°43'31.364" N  
Long. 118°01'55.242" W

Established by: Trimble RTK

Bearings are measured to the brass tag, and distances to the MAG nail, where used. All bearing trees are painted with 6 inch red bands, and have Bearing Tree (54-3) and Land Survey Monument (54-9) signs attached.

Posted and marked wilderness boundary westerly along the 5000 foot contour from the corner with Wilderness Boundary (27-6A) signs, and a Land Survey Monument (54-9) sign on nearby post.

I hereby certify that the corner is monumented as described and the accessories were taken using dual frequency carrier-phase GNSS receivers.

Witnesses: Kristina Powell, Shar Hutchison and David Quittschreiber  
Date: 7/17/2020

### North Fork Umatilla Wilderness Angle Point 544

**HISTORY OF ORIGINAL CORNER ESTABLISHED:**

Corner not previously monumented. This is an administrative corner interior to National Forest System Lands. The position of this corner is controlled by the legal description of the North Fork Umatilla Wilderness as shown on the map dated September 1986, as generally described in Public Law document 98-328.

**DESCRIPTION OF CORNER EVIDENCE FOUND:**

N/A

**DESCRIPTION OF MONUMENT AND ACCESSORIES ESTABLISHED TO PERPETUATE LOCATION OF THIS CORNER:**

At a position on the 5000 foot contour determined by this survey, I set a 3/4 inch diam. by 15 inch long aluminum drive rod, in concrete filled drill hole, with DEEP-1 magnet at the base, and a 3 1/4 inch aluminum cap, mkd. as shown, with a rock collar.

From which:

A 2 inch chiseled BXO in 3 ft. x 2 ft. rock outcrop, bears N 15° E, 11.4 ft. dist.

A 2 inch chiseled BXO in 3 ft. x 2 ft. rock outcrop, bears S 64° W, 10.0 ft. dist.

NAD 83 Geodetic Position:  
Lat. 45°43'31.237" N  
Long. 118°02'13.362" W

Established by: Trimble RTK

Posted and marked wilderness boundary easterly and westerly along the 5000 foot contour from the corner with Wilderness Boundary (27-6A) signs, and a Land Survey Monument (54-9) sign on nearby post.

I hereby certify that the corner is monumented as described and the accessories were taken using dual frequency carrier-phase GNSS receivers.

### North Fork Umatilla Wilderness Angle Point 731

**HISTORY OF ORIGINAL CORNER ESTABLISHED:**

Corner not previously monumented. This is an administrative corner interior to National Forest System Lands. The position of this corner is controlled by the legal description of the North Fork Umatilla Wilderness as shown on the map dated September 1986, as generally described in Public Law document 98-328.

**DESCRIPTION OF CORNER EVIDENCE FOUND:**

N/A

**DESCRIPTION OF MONUMENT AND ACCESSORIES ESTABLISHED TO PERPETUATE LOCATION OF THIS CORNER:**

At the intersection of the 4600 foot contour with the Section line between Sections 20 and 29 determined by this survey, I set a 3/4 inch diam. by 15 inch long aluminum drive rod, in concrete filled drill hole, with DEEP-1 magnet at base and 3 1/4 inch aluminum cap, mkd. as shown:

From which:

A 2 inch chiseled BXO in 6 ft. x 6 ft. x 8 ft. high rock bluff, bears S 55° W, 95.5 ft. dist.

A 2 inch chiseled BXO in 3 ft. x 3 ft. x 3 ft. high rock outcrop, bears N 12 1/2° W, 28.2 ft. dist.

NAD 83 Geodetic Position:  
Lat. 45°43'02.770" N  
Long. 118°05'10.762" W

Established by: Trimble RTK

Posted and marked wilderness boundary southerly along the 4600 foot contour and westerly along the Section Line from the corner with Wilderness Boundary (27-6A) signs, and a Land Survey Monument (54-9) sign on nearby post.

I hereby certify that the corner is monumented as described and the accessories were taken using dual frequency carrier-phase GNSS receivers.

Witnesses: Kristina Powell, Shar Hutchison and David Quittschreiber  
Date: 7/28/2020

### North Fork Umatilla Wilderness Angle Point 842

**HISTORY OF ORIGINAL CORNER ESTABLISHED:**

Corner not previously monumented. This is an administrative corner interior to National Forest System Lands. The position of this corner is controlled by the legal description of the North Fork Umatilla Wilderness as shown on the map dated September 1986, as generally described in Public Law document 98-328.

**DESCRIPTION OF CORNER EVIDENCE FOUND:**

N/A

**DESCRIPTION OF MONUMENT AND ACCESSORIES ESTABLISHED TO PERPETUATE LOCATION OF THIS CORNER:**

At a position on the 4600 foot contour, determined by this survey, I set a standard USFS 2 1/2 inch aluminum pipe, with clear DEEP-1 magnet at base, with 3 1/4 inch aluminum cap, mkd. as shown, with stone mound.

From which:

A 5/8 x 30 inch iron rod with light blue plastic cap mkd. WALLOWA ASSOCIATES, bears N 22° E, 14.6 ft. dist.

A 10 inch white fir, mkd. X BT on a double blaze, with a 3/4 inch brass tag in face, mkd. LS 91201, and 2 1/2 inch MAG nail in right side center, bears N 60° W, 55.4 ft. dist.

NAD 83 Geodetic Position:  
Lat. 45°42'12.528" N  
Long. 118°06'16.998" W

Established by: Trimble RTK

Bearings are measured to the brass tag, and distances to the MAG nail, where used. All bearing trees are painted with 6 inch red bands, and have Bearing Tree (54-3) and Land Survey Monument (54-9) signs attached.

Posted and marked wilderness boundary easterly and westerly along the 4600 foot contour from the corner with Wilderness Boundary (27-6A) signs, and a Land Survey Monument (54-9) sign on nearby post.

I hereby certify that the corner is monumented as described, using dual frequency carrier-phase GNSS receivers and a DTM-422 Nikon Total Station. The accessories were taken using a Warren Knight staff compass with 14 1/4° East declination, and steel tape.

## LEGEND

Found a Wilderness Boundary Angle Point established during Umatilla County Survey 19-119-B, or Union County Survey 044-2019, as described hereon.

Set a 2 1/2 x 30 inch aluminum pipe with 3 1/4 inch aluminum cap, unless otherwise noted. Positioned in compliance with the North Fork Umatilla Wilderness Boundary Description, as generally described in Public Law document 98-328.

Boundary lines posted with six foot steel t-posts and Wilderness Boundary (27-6A) signs, unless otherwise noted.

NGVD '29 National Geodetic Vertical Datum 1929

AP Angle Point

P1 Point on Line

WB Wilderness Boundary

## Narrative Cont'd

### Procedure:

The vertical datum is the National Geodetic Vertical Datum 1929 (NGVD 29), and is defined by GPS Control Point 9317 (SCHLAICH) per Umatilla County Survey 94-06-B. Additionally, general field procedures and methods were done with reference to the Department of Interior, Bureau of Land Management, Manual of Survey Instructions (Manual); USFS Cadastral Survey Specifications and Oregon Revised Statutes (ORS).

All Angle Points established hereon were done so by the North Fork Umatilla Wilderness Boundary description.

This portion of the Wilderness Boundary shown hereon commences at a point here established on the 4600 foot contour, said point being Angle Point 823. We then proceed northwesterly along the said 4600 foot contour, to a point on a small ridge, said point being Angle Point 842. We then proceed northwesterly along the 4600 foot contour to a point on a rocky ridge, said point being Angle Point 861. We then proceed northwesterly along the 4600 foot contour to a point on a rocky ridge, said point being Angle Point 882. We then proceed southeasterly along the 4600 foot contour to a point on the 4600 foot contour, in the bottom of a small draw, said point being previously established Angle Point 900, a 2 1/2 inch aluminum pipe with a 3 1/4 inch aluminum cap.

Lines shown as Posted were posted with six foot steel T-Posts, with Wilderness Boundary (27-6A) signs attached, at intervals generally less than 200 feet, unless otherwise noted.

NORTH FORK UMATILLA ( NFU ) WILDERNESS

Found 3 1/4 inch aluminum cap on 2 1/2 inch aluminum pipe. Set by Dennis Gaylord, LS 1636, in 1996.

## Narrative Cont'd

### History:

The Subdivision of Township 3 North, Range 38 East was originally surveyed by John W. Kimbrell, under GLO Contract No. 700, dated February 9, 1899.

The General Land Office rejected John Kimbrell's 1899 survey.

The Subdivision of Township 3 North, Range 38 East was resurveyed by John W. Kimbrell, under GLO Contract No. 700, in 1903.

The legal description of the North Fork Umatilla Wilderness is as shown on the map dated September 1986 on file in the office of the Chief of the USDA Forest Service, as generally described in Public Law documents 98-328.

### Procedure:

The vertical datum is the National Geodetic Vertical Datum 1929 ( NGVD 29 ), and is defined by GPS Control Point 9317 ( SCHLAICH ) per Umatilla County Survey 94-06-B. Additionally, general field procedures and methods were done with reference to the Department of Interior, Bureau of Land Management, Manual of Survey Instructions (Manual); USFS Cadastral Survey Specifications and Oregon Revised Statutes (ORS).

All Angle Points established hereon were done so by the North Fork Umatilla Wilderness Boundary description.

This portion of the Wilderness Boundary shown hereon commences at Angle Point 712, established on the 4600 foot contour, per USFS Survey by Schlaich. We then proceed northwesterly along the 4600 foot contour to a point on the Section Line between Sections 20 and 29, T3N, R38E, WM; said point being Angle Point 731. The Boundary then continues westerly along the Section line to the 1/4 Corner of Sections 20 and 29.

Lines shown as Posted were done so with six foot steel T-Posts and Wilderness Boundary (27-6A) signs attached, at intervals generally less than 200 feet, unless otherwise noted.

AP 712  
 Found 3 1/4 inch aluminum cap on 2 1/2 inch aluminum pipe, on the 4600 ft. contour, per Survey for the Umatilla National Forest by David Schlaich, dated 11/22/96. NGVD '29

SCALE 1" = 200'	SHEET No. 2 of 6	DATE OF SURVEY Beginning: <u>6/30/2020</u> Ending: <u>9/4/2020</u>
DRAWN BY <u>KLP</u>	CHECKED KLP	PROJECT No. WA E203-02 / 3028
DATE <u>12/2020</u>		

**Narrative**

**Purpose:**

This survey is an administrative survey within the boundary of the Umatilla National Forest. This survey was performed under Wallowa-Whitman National Forest Task Order No. 1204T020F0044, dated May 24, 2020, with Notice to Proceed dated June 1, 2020, also known as the High Buck Wilderness Boundary Phase 2. Robert Moyers and Ken Lind, USFS, were the Contracting Officer Representatives (CORs), and provided technical support and consultation.

The purpose of the survey is to post and mark three separate portions of the North Fork Umatilla Wilderness Boundary. The lines to post and mark are as delineated by Umatilla National Forest within said contract, and defined by the North Fork Umatilla Wilderness description as: "where following a topographical feature, the actual location of the feature will control the approximate course identifying that part of the boundary. Unless specified in the description, calls to a stream shall be to the thread and calls to a ridge shall be to the crest. Section, Township, and Range lines, and Section corners established by the United States Public Land Survey, shall determine the actual location of these portions of the boundary so described." This contract does not include a Title Report or Title Research.

**History:**

The legal description of the North Fork Umatilla Wilderness is as shown on the map dated September 1986 on file in the office of the Chief of the USDA Forest Service, as generally described in Public Law documents 98-328.

The vertical datum listed on the USGS quadrangle map used to depict the Wilderness Boundary in the Legal Description is shown as the National Geodetic Vertical Datum of 1929 (NGVD 29).

**Procedure:**

The horizontal (NAD83) and vertical (NGVD29) datums of this survey are based upon the Control Network Survey completed during High Buck Wilderness Phase 1, as shown on Umatilla County Survey 19-119-B, or Union County Survey 044-2019.

The control network shown thereon was conducted using static GPS observations on GPS Control Points 9315 and 9317, per CS 94-06-B, and newly established GPS Control Points 150 and 151. I held the record CS 94-06-B latitudes and longitudes for 9315 and 9317 as fixed positions horizontally, and I held the record CS 94-06-B orthometric height for 9317 as fixed vertically.

This portion of the Wilderness Boundary shown hereon commences at Angle Point 533, established at the intersection of the projection of a small draw with the 5000 foot contour. We then proceed westerly along the 5000 foot contour to a point on the 5000 foot contour; said point being Angle Point 544. The boundary then continues westerly along the 5000 foot contour to existing Angle Point 561, as shown hereon.

This survey was performed by the Global Navigation Satellite System (GNSS) GPS, and conventional ground survey methods. Dual frequency carrier-phase GNSS receivers were used to establish control. A Nikon DTM-522 Total Station was used for conventional ground surveys. All monumented positions are within closed GPS networks, a conventional closed traverse, and with benefit of redundant measurements. Trimble Business Center software was used for least squares adjustment, at the two sigma level, of survey data.

**Basis of Bearing:**

The Basis of Bearing is the True Meridian and was derived from GPS observations. Local plane coordinates were calculated on a false meridian, and zero convergence angle, at GPS Control Point 9317, and then converted to ground bearing and distances with a project scale factor of 1.0002310723.

Be advised this mapping, and digital copy of the same, are protected by contract stipulations of product ownership and copyright laws.
