We, Allen Thompson, and Lester Potter,  
do solemnly swear that we will faithfully  
execute the duties of chain carriers; that we  
will level the chain upon uneven ground,  
and plumb the tally pins, whether by sticking  
or dropping the same; that we will report  
the true distance to all notable objects, and  
the true length of all lines that we  
assist in measuring, to the best of our  
skill and ability.

## General description.

This Township contains but little 1<sup>st</sup> rate land, its soil being chiefly <sup>composed</sup> of a very sandy loam, of too light a nature to admit of a profitable cultivation; and is entirely destitute of timber.

It is generally covered with bunch grass, and will therefore make reasonably good pasturage; but in this respect, it will not be greatly advantaged by the generous beds of Cactus scattered over its surface.

## List of Names

A list of the names of the individuals employed to assist in running, measuring, or marking the lines and corners described in the foregoing field notes of Township No 3 North of the base line of Range No 28 East of the Willamette Meridian, showing the capacity in which each acted
