

## Township 3 N., R. 37 E., W.M.

Chains		
61.00	Umatilla River, 75 Lks. wide, course N.W.	-1000
65.50	Toll Road from Pendleton to La Grande, N.W. & S.E.	
69.00	Foot of Bluff, N.W. & S.E.	
80.00	<p>I cannot find any trace of old Corner. I therefore set a Basalt Stone 18 x 10 x 5 on West side of Spur for Corner to Secs. 7, 8, 17 &amp; 18.</p> <p>A Fir, 18 ins. in diam., bears S. 52° W., 108 Lks. dist.</p> <p>No other trees near.</p> <p style="text-align: center;">Oct. 13, 1879.</p>	+ 100
<p>I begin at the Corner to Secs. 17, 18, 19 &amp; 20 and with the Improved Solar Compass, I run East on a random line along the South Boundaries of Secs. 17, 16, 15, 14 &amp; 13 and at 5 miles, 1 chain and 75 lks. I intersect the East Boundary of Township 3, 25 Lks. S. of Corner to Secs. 13 &amp; 24. My correction will be 65 Lks. to the mile and to avoid fractional sections on the next to W. tier of sections, I divide the exception of 175 lks. equally among the 5 miles, making each 80.35 lks., as I am satisfied that this exception is caused by the exceeding roughness of the surface over which this line extends. I, therefore, begin at the Corner to Secs. 13 and 24, on the East Boundary of the Township and I run S. 89° 45' <sup>W.</sup> on a true line, on the South Boundary of Sec. 13.</p> <p style="text-align: right;">Var. 23° 00' East.</p>		
8.00	Enter timber S.E. & N.W.	
15.25	North fork of Umatilla River, 30 lks. wide, course N.W.	-250
40.18	<p>A Fir tree, 6 ins. in diam. on steep N. face of Bluff for <math>\frac{1}{4}</math> Sec. Cor., from which;</p> <p>A Fir, 6 ins. in diam., bears N. 4 lks. distant</p> <p>" " 12 " " " " S 52° E. 30 Lks. dist.</p>	
77.00	On Spur extending North	+450
80.35	<p>Set Basalt Stone, 18 x 14 x 4 on N.W. face of Spur for Cor. to Secs. 13, 14, 23 &amp; 24, from which;</p>	-30
