

## Subdivisional Lines, T 5 N R 30 E W M.

Chains	General Description.
	<p>The land in this Tp. (except on the slope of the hills next to river) is all fair grass land.</p> <p>The steep slopes in the vicinity of the river are extremely rough, broken &amp; barren, producing only sage brush &amp; greasewood.</p> <p>The low river bottom is, however, very fertile, producing a heavy crop of grass, wild sunflowers &amp; a variety of weeds of smaller growth.</p>
	<p>Resurvey South Bdy., T 6 N R 30 E W M., As surveyed by Charles M. Collier, Under Special Instructions, Dated Aug. 2, 1911.</p>
	<p>I begin at the Cor. of Tps. 5 &amp; 6 N., Rs. 30 &amp; 31 E., Thence I run W., retracing the S. Bdy. of T. 6 N., R 30 E., searching diligently at each 40 &amp; 80 chs., for the old <math>\frac{1}{4}</math> Sec. &amp; Sec. Cors., and failing to find any indications of these Cors., I continue my retracement W., and at 3 miles, 8.87 chs., intersect the left bank of the Columbia River. I therefore, return to the Cor. of Tps. 5 &amp; 6 N., Rs. 30 &amp; 31 E., and resurvey the S. Bdy. of the Tp., as follows: W. bet. Secs. 1 &amp; 36. Along N. edge of high rolling table land on S. brink of Juniper Canyon.</p>
40.00	<p>Set basalt stone, 22 x 14 x 10 ins., 15 ins. in ground, for <math>\frac{1}{4}</math> Sec. Cor., mkd. <math>\frac{1}{4}</math> on N. face; dug pits, 18 x 18 x 12 ins., E. &amp; W. of Cor., 3 ft. dist., and raised mound of earth, <math>3\frac{1}{2}</math> ft. base, 2 ft. high, N. of Cor.</p> <p>All indications of the old Cor. have disappeared.</p>
80.00	<p>Set basalt stone, 12 x 10 x 8 ins., 8 ins. in ground, for Cor. to Secs. 1, 2, 35 &amp; 36, mkd. with 1 notch on E. &amp; 5 notches on W. edges; deposit one gallon of charcoal under a stone; dig pits, 18 x 18 x 12 ins. in each Sec. <math>5\frac{1}{2}</math> ft. dist., and raise mound of earth, 4 ft. base, 2 ft. high W. of Cor. No evidence of the old Cor. to be found.</p>
